To Captain Richard J. Schmalz, District Four Commander  
From Lieutenant Chris Ruehmer, District Four Third Shift Commander  
Copies to  
Subject Updated CPOP Case

---

**Category:** CPOP Case      **Case #:** SAR06000092      **District:** 4      **Neighborhood:** North Avondale

**Coordinating Personnel:** Officer Linda Sellers/ Sgt. Darryl Davis

**Description of Problem:** Robberies and Loss of Life in the North Avondale area

**Phase of SARA:** Response

## **SARA Documentation**

**Scanning:** During the summer months there has been some concern in the North Avondale area due to the number of calls for service. At the intersection of Dana Ave and Clinton Springs two armed robberies took place all within a week of each other. In the weeks to follow a homicide took place within a block of the above location. The citizens in this area are all concerned since North Avondale is primarily a residential area. In each of the robberies a gun was used and in one a vehicle was taken. It has not yet been determined if both are associated however the description of the suspects are similar.

**Analysis:** It is evident that this area needs some special attention. This location is very busy during the evening hours due to the bus routes. This is area that is populated with majority home owners who have a vested interest in the neighborhood. There are also several renters in the area but they find it very difficult to remain due to the drugs and loitering in the buildings. The interest of the renters is then compromised.

The reported crimes have shown that the community has increased its awareness of criminal activity. The crime statistics show calls for weapon runs, prostitution, assaults, suspicious persons and robberies which all occur on the daily basis. This awareness will be very vital in bring this community back together.

**Response:** This CPOP case will require a combined effort of all District Four shifts. Covert units would also be very beneficial when it comes to collecting some intelligence. While data is still being collected, beat officers in this area implementing directed patrols and enforcing code violations.
